

AIDA THE MYTH

DARK POP · ALT POP · ELECTRONIC | St. Petersburg, FL

"one of dark pop's most thought-provoking new voices"

— St Pete Catalyst, March 2026

ABOUT

Aida the Myth has seen the monsters who run things — and decided to dance anyway.

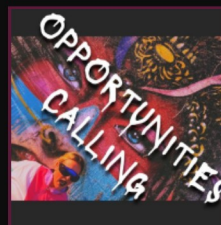

The St. Petersburg, FL independent artist makes dark pop and alt-electronic music that maps sharp political awareness onto raw emotional honesty. Her 2026 debut album *PICK ME* draws an unflinching parallel: propaganda and toxic love run the same playbook. Both start with a promise. Both make you feel chosen. Both slowly replace your own voice with someone else's until you can't tell the difference.

Sonically: the industrial tension of Trent Reznor, the cinematic weight of Kavinsky, the theatricality of Lady Gaga — filtered through a sardonic, genre-fluid lens. Refusing to be comfortable. Now taking it live.
